FAUX-FINISH

COLOURS
4 COLOURS

GOODStyle siding is available in a vast array of colours. You could go with the soft and natural tones of the **ILLUSION** collection with its faux-finish that combines the advantages of both opaque and semi-transparent finishes and, therefore, offers the best of both worlds.

Two coats of tinted finish reproduce the wood grain that is sought after by homeowners while providing the same protection as an opaque finish. The collection is available in four colours, that blend well in natural environments.

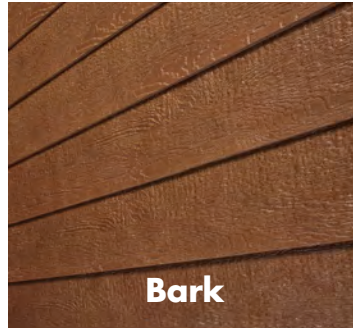

THE ILLUSION FAUX-FINISH COMBINES THE ADVANTAGES OF BOTH OPAQUE AND SEMI-TRANSPARENT FINISHES AND, THEREFORE, OFFERS THE BEST OF BOTH WORLDS.

GOODSTYLE ADVANTAGES

- + Easier installation (extra long 16' plank)
- + Complete line of accessories
- + Paint meets stringent standards of VOC emission (Volatile Organic Compound)
- + SFI Certified (Sustainable Forestry Initiative)

SEMI-TRANSPARENT

COLOURS
5 COLOURS

GOODStyle offers yet a third option, the **NATURE** collection with semi-transparent finishes that highlight the veining in the wood. In all three cases, the factory finish means greater quality and colour control, which everybody can agree on!

Samples may not reflect the exact colours and are for reference purpose only.
